FROM INQUIRY TO SHIPMENT

Our Production Process

1

Buyer Inquiry

You share your style, quantity and target price — our team reviews feasibility and responds quickly.

2

Product Development

Tech packs, patterns and construction details are finalized to match your design intent.

3

Fabric Sourcing

Fabric and trims are sourced from vetted mills, matched to your quality and budget requirements.

4

Sample Development

Pre-production samples are made for fit, construction and fabric approval before bulk cutting.

5

Buyer Approval

Samples, fabric and costing are confirmed with you in writing before bulk production starts.

6

Bulk Production

Cutting, sewing and finishing run on schedule under supervised factory production lines.

7

Quality Inspection

In-line and pre-shipment inspections check stitching, fabric, measurements and finishing.

8

Packing

Goods are folded, tagged and packed to your specification, cartons or polybags as required.

9

Shipment

Orders are shipped by air or sea freight with full documentation handled for smooth customs clearance.
